2017 student app list - year 4/5/6

We ask that the following apps be installed on your child's iPad for the start of the 2017 school year. Many of these apps are from the 2016 list. The new iPad Air 2/Pro comes with a set of Apple installed apps, some of which are listed below. **Please keep at least 5 GB free on the iPad at all times. Units will confirm any other apps that may be used during the year to support the integrated curriculum topics. All prices were accurate at the time of printing. TIP: Purchase iTunes cards when they are 20% off.**

*Free from Oct 2013 / New iPads, there may be charges using an existing iTunes account or an older iPad

A guide to apps & in-apps purchases for

consumers <http://www.acma.gov.au/Citizen/Stay-protected/My-mobile-world/Content-and-services/apps-and-in-apps-purchases-a-guide-for-consumers>
