Grade 5/6 Tinkering Incursion

February 25th, 2015

Dear Parents and Caregivers,

This term in grade 5/6, students are investigating the question, “How does science help us?” Through this investigation, students are exploring how electrical circuits are used. Students will have the opportunity to learn about basic circuits through a ‘Tinkering Incursion’.

Students will build and decorate their own creation with a working switch and lightbulb. They will investigate solar power, magnetism, motors and buzzers.

Date: Tuesday March 10th, 2015

Unit 4: 9.30am-11.00am

Unit 5: 11.30am-1.00pm

We welcome any parents with an interest in this area to help a group of students on the day. Please let us know if you are available to help on the day.

The cost of this incursion will be $11.00. Payment for this incursion will be taken from either the annual levy of $100.00 (2-6) or the quarterly instalment due at the start of this term. Students can only attend this incursion if either the amount in full or this terms amount has been paid in full. You cannot pay for this activity individually. If you are having difficulty making payments or you would like to discuss a payment plan, please contact Sue or Michael.

Regards

Sarah and Ellen

5/6 Teachers
