

Title : my mum anna

Written by : pearl smith

She was born in New Zealand on July the 30th 1976. She was born with brown hair and brown eyes. She has 2 brothers and she is older than them both. When she was 4 she moved to Australia and lived there for 2 years. She moved there because her dad had to work there. She also lived in Gold Coast , Sydney, and Tasmania. When she lived in Australia she remembered her dad catching a snake in the backyard. When she was 6 she moved back to New Zealand and started school.

She remembered her first few days of school and the teachers being strict. There was a teacher in her classroom next door who still used the strap and another teacher who made them write lines out from a dictionary if you were naughty. A couple of years at school she got a nice teacher.

At school she liked art writing and reading in her classroom. At playtime she would build huts out of leaves and sticks.

Every school holiday in the summer she would go in a camper trailer with her mum and 2 brothers to the beach. They would swim at the beach and play with other kids in the camping park.

After night school she moved away from home and lived in Wellington to go to University. She studied photography for 4 years. Then she moved to Melbourne. She has lived here for nearly 20 year. She studied at RIMT for 2 years.

Her first job was when she was a teenager. The job was babysitting the kids down the road from her house she also worked a McDonald's and another restaurant waitressing.

Now in 2020 she would like to move out of the city to the country and grow veggies and have chickens! She would also love to do more photography.

**The end**
