A message from your Coordinator

Hello everyone,

We welcome you all as well as all those joining new, for an exciting new term. It is indeed delightful to be back and very grateful to Steph, for leading other staff and doing a fantastic job in my absence.

OSHC has been extremely busy with numerous outdoor/indoor activities which included nature walks, Footy Games, Obstacle courses, an ongoing project with recycle items, and craft activities for Mother's Day.

In the coming weeks we will have cooking sessions including making Roti, learning to make your own Popcorn Cone and Movie Nights, and reintroduction to Aboriginal dot paintings are just a few of the planned activities. Hope you have fun in OSHC as much as we enjoy bringing it to you.
Dee, Steph and the OSHC team

Activities coming up

- Handball Challenge
- Making Roti
- Wire Display Stands

What's on the menu

- Special Potato/Veggie Bake
- Roti Bread
- Pita Bread with cheese

It's free to register

To attend our program, you must register your child. You can register an account with us at pp.campastralia.com.au or by downloading our Camp Australia smartphone app from the Apple App Store or on Google Play. Once registered, it's easy to make bookings and manage your account.

Newsletter

Enjoying some outdoor group games such as Uncle Sam and Octopus' Garden

Finishing off Easter craft activities we started last term, including decorating these wooden bunny and egg hanging decorations with sequins, jewels, glitter, ribbon and an assortment of recycled paper. The children really enjoyed getting creative and getting messy!

For Mother's Day craft the children enjoyed decorating key rings, wooden flower decorations and framing pictures and messages for their mums!

Everyone has been getting into hammer beads, where they create intricate creations and staff irons them to stick together. We can then stick magnets on them to make fridge magnets!

Building architectural creations using large recycled items and natural materials such as cardboard boxes, tissue boxes, cylinders and sticks. Some engineering minds chose to design a rocket ship on the board then worked together to build it. This will be an ongoing project!

The children found a pretty ladybird in the playground and were taking turns at holding it. One even created a home for it!
